

SPP#16 Quato 78 Plus

Neutral pH Disinfectant Cleaner Concentrate

DIN #01975757 PCPA Reg No. 25015

EPA Reg. No. 47371-130-67205 EPA Est No. 64900-CN-001

Description:

A super concentrated neutral pH detergent, disinfectant, fungicide, virucidal and odor counteractant.

Uses:

Quato 78 Plus is qualified for hospital and other health care facilities because of its effectiveness against a wide range of gram positive and gram-negative bacteria including *Pseudomonas aeruginosa*. Formulated for use in clean up of surfaces contaminated by blood or body fluids with the potential for transmission of HIV and for general use where cross infection from another organism is a major concern. Also for general cleaning, disinfecting and deodorizing of surfaces such as floors, walls, tables, countertops, sinks, bed frames, toilets, shower stalls, tile and grout, drinking fountains, etc.

Germicidal efficacy: When tested at 1:128 parts water (8 ml/l or 1 oz/gal), in the presence of organic soil (5% blood serum) and 400 ppm water hardness (CaCO₃) Quato 78 Plus has been effective against the following pathogens:

Virus

HIV-1 (AIDS Virus), Herpes Simplex 1 & 2, Influenza A/Hong Kong, Rubella, Vaccinia, Respiratory syncytial virus, Transmissible gastroenteritis virus, Adenovirus type 4, Infectious Bovine rhinotracheitis1, Pseudorabies1, Canine Distemper1, Feline picornavirus1, Feline leukemia1, Rabies1, Avian Bronchitis1.

Fungus

Trichophyton mentagrophytes, *Candida albicans*, *Aspergillus niger* (Mold & Mildew Claim)

Bacteria

*Pseudomonas aeruginosa*2, *Staphylococcus aureus*2, *Staphylococcus aureus* (MRSA), *Salmonella choleraesuis*, *Acinetobacter calcoaceticus*, *Bordetella bronchiseptica*, *Chlamydia psittaci*, *Enterobacter aerogenes*, *Enterobacter cloacae*, *Enterococcus faecalis* (Vancomycin Resistant), *Escherichia coli*2, *Klebsiella pneumoniae*2, *Fusobacterium necrophorum*, *Pasteurella multocida*, *Proteus mirabilis*, *Proteus vulgaris*, *Salmonella enteritidis*, *Salmonella typhi*, *Salmonella typhimurium*, *Serratia marcescens* *Shigella sonnei*, *Shigella flexneri*, *Staphylococcus epidermidis* (antibiotic resistant), *Streptococcus faecalis*2, *Listeria monocytogenes*, *Streptococcus pyogenes*
1Animal Pathogens
2ATCC & antibiotic resistant strain

Directions and Dilutions:

- For general cleaning and disinfecting: dilute 1:128 parts water (8ml/L or 1 oz/gal). Apply solution liberally with cloth, mop or spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. When cleaning heavy soil or organic matter, pick up dirty solution and then re-clean the surface with Swish Quato 78 Plus solution, prepare fresh daily or when solution becomes visibly dirty or diluted.
- For use against HIV (Human Immunodeficiency Virus):
- Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Swish Quato 78 Plus, dilute 1:128 parts water (8ml/l or 1 oz/gal) parts water then apply liberally, let solution remain on surface for a minimum of 10 minutes, rinse or allow to air dry.

Caution:

- Use as directed
- A pre-cleaning step is required and recommended for heavily soiled surfaces
- Keep out of reach of children
- Keep from freezing
- Read MSDS completely before using this product

Product Code & Size:

#9816 2 x 4.73 L
#9916 2 x 2 L

BENEFITS

Effective - Kills HIV and many other Pathogens (MRSA, VRE)
Hard Water Tolerant - Amphitricha surfactant base
Versatile - Cleans, disinfects, deodorizes
Neutral pH - Will not dull floors
Registered - TPD, PMRA, EPA
Economical - Saves money
